**THE PROGRESS**  
GROUP OF INSTITUTIONS

Exploring excellence in education together.

Message from the Chairman

As a founder and chairman of Progress Group of Institution, it is indeed a profound opportunity and distinct privilege to serve in the noble cause of imparting quality education to our children.

“The Progress Institutions” are dedicated to pursuit of academic excellence, encouraging students to become independent and creative thinkers, confident, enlightened learners and socially responsible citizens with the mindset that can both interact and integrate effectively with people of different race, culture and religion.

We are also committed to inculcate in all our students, strong ethical values of integrity, respect and discipline as well as clarity in thoughts and decision making ability as a lifelong process which a good education fosters. In order to achieve all these, TPGI follows a rigorous programme based on best educational practices.

Furthermore, it has been one of my quests in life to make quality education available, accessible and most importantly affordable to all the sections of the community.

TPGI is the foundation for new generation of leaders and innovators who will continue to pave the way for a better and bright future of our country.

With this vision I set myself to create a world-class premier schools, Junior College & Degree College that serve as nurturing ground for the students from diverse backgrounds, ethnicities and intellectual potential.

By the Grace of the Almighty Allah the most Beneficent and the Merciful, the support from the parent community is very encouraging.

**MIRZA MOHAMMED ALI BAIG (Abid Pasha)**  
Chairman

Your Search For A Good School Ends Here

Progress goes on...

From the moment a student first steps into the premises of The Progress Schools, the transformations begins. The change is steady, measurable and guided. Every step and stage of childhood is observed and shaped to make the time enjoyable and memorable. The intention is to explore every opportunity to learn and to utilize maximum period. The end result is that the student transforms into an individual with social responsibility, full of enthusiasm, confidence, and knowledge to face global challenges professionally and emerge successful. It is not only about the knowledge used to shape efficiently but makes learning unique, it is the quality, standard and precise use of knowledge in day-to-day living that make The Progress Schools excellent in the field of allround development.

### Our School Fleet

A fleet of buses, equipped with communication aid and security men, ply all around the city well before sun rise, to receive our students, making it convenient for the parents to send their children to the school in time with safety. The committed bus staff give time to time information from the current location and ensure timely approach to the locations allotted to them. The drivers are well trained to drive safely.

Message from the Correspondent

Present day education develops the intellect and skills but does little to develop good quality. After making an elaborate study of congenial environment required in the field of education, in the present world full of challenges, this dream project of starting a Global School apart from the existing intendentaward with all the essential facilities and modern methods of learning is visualized.

At TPGS we focus at the overall development of a child. The promotion of human values are integral part of our curriculum. "Bend the twig and shape a tree" says the proverb. The molding of character at TPGS starts at the early age.

The Progress Institution's foundation is dedicated to foster student's intellectual, social, emotional, physical, and aesthetic development in order to prepare them for life in a rapidly changing world. We are determined to apply our best efforts to keep the Education dynamic and train young generation to grow into leaders in different walks of life.

We always endeavor to make the school environment amiable for contemporary learning skills, enabling to produce global talents by providing a stimulating learning environment with a technological orientation across the whole curriculum, which maximizes individual potential and ensures students of all ability levels are well equipped to meet the challenges of education, work and life.

Correspondent

Message from the Vice-Chairman

### The Progress High School

I am excited and look forward to working with our students, staff and parents to make The Progress Schools the best they can be.

We continue to develop and enhance a school that  
Reflects the values.

Strives for the highest academic standards.

Focuses on the development of the whole child.

I have an open door policy and request all parents to take this opportunity to discuss any issue with me so that we can move forward together.

MIRZA AHMED ALI BAIG  
Vice-Chairman  
TPHS

**THE PROGRESS**  
GROUP OF INSTITUTIONS

**MIRZA IBRAHIM ALI BAIG**  
Managing Director  
TPMS

### The Progress High School

The thirst for knowledge is not restricted to the child. It is also essential for a parent and a teacher to keep adding to their knowledge bank. We equip our student and teacher community with fundamentals and experiences to develop a child's creativity and imagination so as to grow up to be productive adults to become the citizen's of the world ready to make their own great contribution to mankind. We strive to reach to a correct understanding of what education really let us all benefit from it.

**MIR SHUJATH ALI**, our vice principal, strives with his relentless service for the constant development winning the hearts of the pupils and the people.

**MRS. RITA SAXENA** One of our Directors maintains a good rapport with all and puts in all efforts for the betterment of all. She is a mother away from home.

**THE PROGRESS**

### OUTDOOR PLAYSTATION

**BELIEVE & ACHIEVE / KEEP TRYING TO BE FIT AND DON'T QUIT**

### JENGA GAME

**AIM HIGH, CAN DO... BELIEVE IN ONESELF**

### OUR CHEER LEADERS

**Education Tours and Trips**

Our Students were an integral part of the welcome troupe to cheer Ms. Ivanka Trump, the daughter of President of USA, on her visit to Taj Falaknuma, Hyderabad. They were interviewed and appreciated.

### Health is Wealth

TPGI believe in "A sound mind in a sound body" and give prime importance to student's health enabling them to pursue education in continuity. Medical camps are organized in the school from time to time ensuring good health of the students and all the staff personnel. The school infirmary provides immediate medical and personal attention as and when required. It is mandatory for all the students and staff members to be inoculated against seasonal and contagious diseases. School authorities make periodic inspection for hygienic condition of the whole campus. especially class-rooms, dining-hall and wash-rooms.

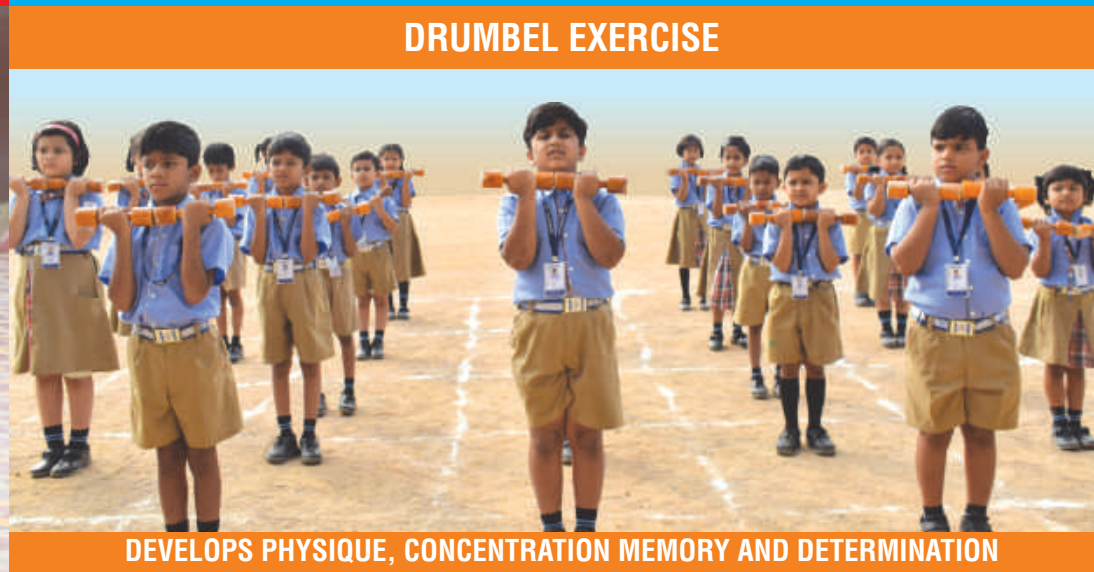

**HOOP DRILL**

**MINI SPORTS DAY JUNIOR ON THE MOVE...**

**DRUMBEL EXERCISE**

**DEVELOPS PHYSIQUE, CONCENTRATION MEMORY AND DETERMINATION**

**Evolution of Global Education Values**

**Falaknuma Campus**

**Way to Healthy and Disciplined Life-style**

Games and sports provide not only absolute relaxation but also evolve a disciplined and healthy life style with bright future scope. Physical fitness plays a vital role in conquering goals of life. At TPGI students are encouraged to participate in various games and sports activities. There is ample space for various indoor and outdoor games. Yoga and meditation are also included in the schedule as it is the best way to align mind and body. Students are encouraged to participate in martial art classes. All the sports activities are conducted under the vigilance of well trained physical education trainers.

**The Progress School** campus leaves the lasting pleasantly fresh impression. It gives the refreshing to your soul as you enter into the school campus, the surroundings give energy and enthusiasm to boost up a child. The beautiful and spacious campus induces in the children a desire to come to the school every day. Right from the establishment we firmly believe that academic excellence along with holistic development of the child is key to succeed in life. The curriculum is designed to nurture new ways of thinking, visualizing and processing ideas in the children's mind. The state-of-art infrastructure cascaded with the use of latest technological teaching methods make a distinguishable difference and the architectural design of the campus enables qualitative administration and the smooth functioning of the school. The campus is well equipped with necessary monitoring, safety and security measures. Elaborate efforts are made to provide the best quality interiors and modern teaching-aids in the classroom, laboratories and library.

C. Blocks For Boys

Falaknuma Campus

Spacious, Ventilated and well designed building named as 'C' Block has been constructed, beside the main building, Exclusively for boys with all the modern facilities to enhance the learning process. The infrastructure shall inculcate interest and enthusiasm among the students. This spacious and well ventilated block enhances the learning enthusiasm and capacity.

Exploring Talents in Co-curriculars

Creative arts enrich our students and society as well. The school has state-of-art auditorium.

Co-curricular activities are a must for the all round development of a child. Only study without other activity-makes the students dull and restless. Considering this, a lot of activities are planned to keep the momentum going. Literary activities-essay writing, elocution, debate, extempore etc... are regularly organized. Cultural activities too are included apart from sports and games. Healthy competitions instill sportsman spirit and develop tolerance and understanding. Qualified personnel are appointed to kindle their talents, shaping them to leap high in their fields of interests.

### The Ocean of Knowledge

Library is the cynosure of the school. In our schools, it is exclusively designed with the variety of books providing a wide range of information on various subjects to booster better learning. Though the technology has deep penetration in the field of education, it cannot replace the books as a whole. Library has a wide range of meticulously selected reference books, question banks, magazines, periodicals, newspaper and CDs/DVDs. Reading habits are encouraged among the students by allocating sufficient time in their schedule. The ambience suits the reading tastes of all age groups, including teaching staff.

### Bahadurpura Campus

This majestic edifice is an enthusiastic booster.

**A Great Place For Education With A Tradition of Excellence**  
(The Family School)

Bandlaguda Campus

The magnificent structure in a 2.5 acre extent depicts the type of architecture that has been the symbol of a learning place where value based education is taught. New Concepts mixed with old values form the correct basis for integrated learning.

The infrastructure provided is of premier quality, The Labs, Swimming Pools, The Library, Games and Sports Facilities help the allround development through enthusiastic and innovation teaching learning methods. The Teacher adopts such a method where the child is always enthusiastic to learn.

**ON THE OFFER :**

- 3) Interactive Sessions
- 4) Child Centred Learning
- 5) Curriculum Designed For Allround Development
- 6) Co-Curricular Activities
- 7) Swimming Pools with Trainers
- 8) Open Door Policy for Better Rapport

**Ready to Withstand Challenges**

It's evolution time from childhood to adolescence and most challenging time for learners. During Middle year programme teachers at The Progress School's Conduct the integrated state syllabus to guide the child develop critical thinking, solve 'real-life' problems, acquire knowledge of local and global issues, develop communication skills, engage in debates and express creativity through actions. Continuous Comprehensive Evaluation (CCE) is the method of assessment recommended by NCERT. We humbly follow the same in order to assess the gradual progress of the child and to help him/her in the weaker areas. Subjects teachers are deployed to impart best knowledge of their subjects among our students. They are the mentors and guides of their students, guiding them to the path of success. Value added learning process like group discussions, presentations, symposiums and workshops are conducted. Time to time counseling is organized for the studetns.

**WOMEN'S ERA / PROVING THEMSELVES  
GIRLS NCC TROUPE**

### Time to Explore

Our schools follow a unique program education system based on sound values. Systematic and scientific methods are adopted in and out of the class-rooms to make the child's mind eager to gain knowledge. Activity based learning with various educational gadgets make learning interesting. Our experienced mentors adopt innovative methods to create curiosity among young brains and nurture their hidden talents by organizing daily activities. Inbuilt Modern teaching aids in our school help the child to develop the numeric and linguistic ability. Researches show that children at the Primary age develop positive attitude to learning if they are given the opportunity to use already what they know to relate and develop new ideas and conception. After completing the primary schooling they are well prepared to set for Middle Year Programme.

### Mission Providing Quality Education

To lay the foundation of a noble character of moral integrity, brotherhood, patriotism and sacrifice in the young minds so that they grow straight and strong as ideal leaders who can shape the destiny of the nation.

We aim at transforming the student into an all-round personality through developing him/her physically, morally, intellectually and psychologically. Teaching old values through new concepts is our motto.

### Vision

To provide a happy, caring and stimulating environment where children will recognize and achieve their fullest potential, so that they can make their best contribution to society.

We prepare students for the 'real-world'. Students learn the best when they are engaged in a meaningful challenge.

All-round development, development of confidence and positive approach in a child is our commitment.

**The Brain Programmers**

Our schools have a dynamic, dedicated and well experienced team of teachers, the brain designers...each anxious to contribute for the development of the students. They play multi-facet role of a teacher showing their students the path to success in all walks of life. They are not bounded to the calss-rooms alone but also help to clear doubts and dispel social fear their students. They motivate the students to excel in academics and co-curricular platforms. Though well talented, our faculties undergo capsule training sessions conducted by reputed academic institutions to keep themselves updated with the latest trend in education and making themselves capable of generating global talents in all walks of life.

**Learning by Doing**

The Child comes to The Progress Schools to learn while having enjoyment. The most important quality in preschool is that the child in his/her formative years, is eager to learn in their own way. The early childhood programme is based on age specific learning process. The classroom climate sparks multiple senses, triggers investigations into themes and topics and leads to discoveries with delight. Specially designed activity rooms with the latest education tools make learning more interesting and interactive. A blend of Montessori techniques and playway methodology is used through which the children have an opportunity to acquire knowledge and understanding, providing progression which develops skills, concepts, positive attitudes and values.

### Congenial Atmosphere

The Progress High School Is an English Medium School and gives importance to English Speaking as the present age of communication demands. The Students are exposed to different competitions to develop their communication skills. The school provides daily news papers to the Students to inculcate reading habit and improvement in English. Spacious, ventilated classrooms are provided in separate blocks for the Pre-primary, Primary and High School Students. There is a separate block for the Girls with all the facilities. Well-equipped Science and Computer Labs are available for the students. A Well furnished library is setup For The Students and Teachers.

### Enlightening Minds

**Tell me and I'll forget; show me and I may remember; involve me and I'll understand.**

The process of choosing the teacher is rigorous. Interactive digital boards are used in all the class-rooms to make the learning easier. The students are kept engaged through interactive teaching methodology that ensures their active involvement. The teachers do not restrict them to the class-room teaching alone. They help the students to overcome their fear, anxieties and worries and encourage them to perform well in the academics. The teachers are trained and counselled constantly for teaching and to keep in tune with the latest trends globally.

### Electronic Teaching Aids Oozing Contemporary Wonders

Information and communication technology has become part and parcel of contemporary education. Today, life becomes standstill without technology. At TPGI, students make best use of modern technology with progressive guidelines of their teachers. Well furnished ICT labs are made available with adequate software and high end machines. Students make best use of internet to gather subject-related information to hone their knowledge.

### Labs-Verifying Concepts of Theories

We understand that practicals should be incorporated with theories for better understanding.

The school has well-equipped Physics, Chemistry, Life Sciences and IT Labs. The students perform practicals under the able guidance of well experienced subject teachers. The Management and staff have applied their best efforts and skills to design the labs useful and safe for the students. Skilled lab assistants are employed in each to keep the laboratories updated and ready for practicals.

Maths lab has been planned to ease the contemporary education and diminish Maths phobia among our students. Students are encouraged to participate in science projects and exhibitions to install creativity among them.
